According to Tapp, all three counties could benefit from more jury trials and a generally more aggres-sive prosecutor's office. "All you have to do is go out and talk to the public in the workplace and in their homes. People are tired of rampant crime. And the perception is that little is being done to curtail it. Even in those cases where a conviction is obtained, it's usually a plea bargain, and it's usually much less than the original charge called for. We can do better than that. We can make a difference...but-only if we elect a prosecutor, not a politician."
