ENROLLMENT OF SIXTH GRADE STUDENTS

The Kentucky Department of Education requires that certain health documents be on file at school prior to or upon enrollment into the sixth grade.

An immunization certificate reflecting all vaccinations received is required. A second MMR (measles, mumps, rubella) is required for enrolling into the sixth grade. This vaccine can be gotten at either the health department or the doctor's office. A certificate must be presented the first day of school. The local health department can issue a certificate if you have a personal record of the child's vaccination.

A medical examination is required. This second medical examination must have been received within the last year prior to enrolling into the sixth grade. The physical form must be a Kentucky Department of Education Sixth Grade Physical Examination form dated December, 1999. An athletic physical form is NOT acceptable for the 6th grade physical. Two different forms are required when the student will be playing sports. Schools can voluntarily grant a short grace period for the medical examination if an appointment card is presented.

An immunization certificate reflecting a second MMR and a second medical examination are required for sixth grade enrollment. These are required to be on file at the school prior to or upon enrollment.

During the summer months there may not always be someone working in the offices at the schools. Therefore, any medical records should be turned in at the Board of Education office on Richmond Street.

Summer is a very busy time. Please get these services taken care of as soon as possible so that your child will be ready to enroll into the sixth grade this fall.

Jeannine M. Parsons, RN
District School Nurse/Health Coordinator
