You were gone before we knew it, and only God knows why. A million times we've missed you, a million times we've cried.

If love alone could have saved you, you never would have died. In life we loved you dearly, in death we love you still. In our hearts you hold a place no one can ever fill. It broke our hearts to lose you. To not return.

Saying Goodbye is Painful wife and I took our younge

My wife and I took our youngest son to college on Saturday to begin his freshman year. It was hard to say

ive some idea now about how

goodbye.

Thave some idea now about how much my parents loved me. Having my own-childreand saying goodbye to them, has taught me how my parents must have felt when they said goodbye to implement must have felt when they adiagoodbye to implement must have felt when they adiagoodbye to implement must make the hardest hing he ever did was to leave me standing outside my dorm at Georgetown College when he and my mother dropped me off to begin my freshman year. My father went through many difficult times in his life, so if this was the hardest, it must have been very hard.

After leaving two sons at college in the last five years, I now know what Dad meant. As we were driving away, I knew I had to leave and I knew it was the right thing to do, but it was not what I wanted to do. I time was moving forward, and my only choice was to move with it. Coming back known was asad time. There were all the reminders that he digust been free, from his dirty

There were all the reminders that he had just ben there, from his dirty socks to the books he loved so much. The house seemed huge and quiet. We stayed busy to avoid thinking about what this weekend means for our lives.

I know that sending a child away

to college is not the worst pain that can come to us. I am aware that parents whose children have died would love to go through what I am going through now. There is much worse pain, but I still feel the loss.

I have said before that the only thing worse than having your child leave home is having your child of leave home. We do not want our children sjill living with usa at 5 and expecting us to support them. Leaving home is a natural part of growing up, and I would not have it any other away, but it is still painful. My experiences of the past week-end increase my admiration for single large my still a single parents. I ask myself what it would be like to go through this alone, and the only answer is "it would hurt even more." My wife is a great supportand I cannot imaging soing through this without her. Single parents, how do you do it? you do it?

This must be an especially difficult time for parents of only one child as well. When all your life has been wrapped up in that one child, turning loose is not easy to do.

wrapped up in that one child, turning loose is not easy to do.

It was good to come back to work this morning (Monday). That gives me something on which to focus other than my own loss.

Obviously this begins a new phase in progrisus, the "gongly-page" sense.

Obviously this begins a new phase in marriage, the "empty-nest syndrome" someone called it. One man told me that he woke up in bed next to a stranger after his children lefthome. "My wife and I focused solely on our children for so many years that we did not know each other," he explained. The relationship between husband wife becomes even more renicial because there are no children to serve as buffers. Husbands and wire smust rediscover each other in order to begin this new phase in their lives. The closing of one chapter marks the beginning of another. Dear Editor,

I am writing because no one else
will there no me and I am boping that
somes of your readers will assist me in
my protest to get the county reads in
Rockeasile County fixed. Not the ones
that have been blacktopped twice this
year, but the ones that haven't had
anything done to them since floor
years ago. One of the responsibilities
of being an adult is to vote. Vote in
representatives to represent me and
my county, now we have done that in
this county as in other counties. But
what bothers me is when someone
goes into office such as Judge Buzz

Carloftis, the only help we can see that he is giving is to the people who he wants to help and not everyone.

On Emmett Foster Road, which has been deeded as a county road, has been deeded as a county road, there is 'chunke' of backtop that has came up and literally busted my oilpan. I have had to replace two of the tires on my car due to the 'cating' effect the road does to the rubber on the tires. Now I am aware that all roads' eats' at your tires but Emmett Poster Road is helping its self to second and third propositions of your tires everytime you drive over it.

I live on this road with my husband, daughter, mother-in-law, fa-band, daughter, mother-in-law, fa-

The of this toad with his his band, disaphier, mother-in-law, father-in-law, father-in-law, father-in-law by the care of the capped people who cannot travel on this road. If any of us were to get sick capped people who cannot travel on this road. If any of us were to get sick and need to go to the hospital we would probably get killed trying to get off of this road.

Last year, when I called Mr. Carlotis and asked him to repaw that road he sent a pickup truck with one man in it down here and he tossed out blacktop like you would toss out grass ced in a field. And of course, it was picked up by the tires that were traveling on the road. Then he sent a load of gravel to go on the road, which still cause you to get hurt. Now this has blacktop on it. Now in my experiences on this earth one of them is to never purtocks on a pawed road till cause you to get hurt. Now this has blacktop on it. Now in my experiences on this earth one of them is to never purtocks on a pawed road till cause you to get hurt. Now this has blacktop on the road, which still cause you to get hurt. Now this has abloe ton proven here, almost. And what I mean by almost is the caution that the drivers of this troad use. When you to get hurt. Now this has abloe to go to go the road of the middle can be also the province of the middle can always the office holders in Rockcast anything but time. I want this county to become what all counties are suppose to be. I am attempting to have the office office holders in Rockcast anything the time. I want this county to become what all counties are suppose to be a mattempting to have the office office holders in Rockcast to do to get up and let someone else the county do what they are suppose to be the and the province of the
