One in 20 of these people will get colon cancer in their lifetime.

(But, 20 in 20 won't talk about it.)

We know it's hard to face the facts about colon cancer, but here they are:

- Colon cancer claims 48,000 lives every year--nearly enough to fill Rupp Arena twice. Colon cancer is the second leading cause of cancer-related deaths in the U.S., just
- behind lung cancer.

 Your chances of developing colon cancer increase as you get older.

That's why Rockcastle Hospital and Respiratory Care Center has declared March "Colon Cancer Awareness Month."

So stop by the hospital or your local pharms to pick up a free colon cancer screening kit, courtesy of us. The results are confidential a mailed directly to your doc
