Final Reporting Date for Small Grains-May 31st

Jeffery S. Hall, State Executive Director of the Farm Service Agency in Kentucky, reminds farmers that May 31st is the final date to report crop acres planted to small grains including wheat.

Program payments such as Loan Deficiency Payments (LDP) for wheat and other small grains are based on acreage reported to FSA. The farm owner, operator or producer who shares in the crop or an agent of either party can file acreage reports. Reports filed after the final reporting date are subject to a late-reporting fee.

Spring planted acreage of corn, barley tobacco, soybeans, grain sorghum or other crops must be reported by July 16, 2001.

Long Term Planning Sessions for Agricultural Development

Producers in the state of Kentucky are invited to attend a group of meetings geared toward the development of a long-term agricultural development plan. On July 10-11, 2001, Governor Patton will convene a meeting of approximately 40-50 individuals to begin the process of putting together the big pieces of an agricultural development plan. The session will be facilitated by Dr. Ray Goldberg of the Harvard Business School.

Prior to the July meeting, there will be convening regional meetings in several locations throughout the state. The dates, times, and locations of some of these regional meetings

are listed below:

JUNE 5, 2001-6:30-9:30 P.M. CDT-PATRICK COMMUNITY CENTER, ELIZABETHTOWN.

JUNE 7, 2001 - 6:30-9:30 P.M. EDT-STRATTON COMMUNITY CENTER, SHELBYVILLE.

JUNE 11, 2001-6:30-9:30 P.M. EDT-SOUTH KY. RURAL ELECTRIC CO-OP, SOMERSET.

JUNE 13, 2001-6:30-9:30 P.M. EDT-BLUEGRASS AREA DEVELOPMENT DISTRICT, PERIMETER DRIVER, LEXINGTON.

JUNE 18, 2001-7:00-10:00 P.M. CDT-REGIONAL CONFERENCE CENTER, BOWLING GREEN.

The purpose of these initial sessions is to provide local opportunities to contribute to the development of the long-term comprehensive plan for agricultural economic development in Kentucky.

It Pays to Know the Law

Kentucky farmers interested in knowing the law with regard to employment standards may contact the office for handout material on the subject.

2001 Loan Rates

FSA has been advised that currently there are no 2001 loan rates and LDP rates. Therefore, at this time when accepting producers' request for Loan Deficiency Payments (LDP) or for the Grace Out Program producers are advised the rate for payment shall be zero. Once the rates are announced, we will calculate your LDP based on the new loan rates, and upon the date of the application for

payment.

The National office has advised, the rates will not be announced until the new Administrator is named also the 2001 loan rates may be 10% less than the 2000 loan rate.

FSA Offices will advise producers when these rates become available.

FSA realizes that many farmers may begin feeding thus the loss of beneficial interest occurs. Anyone who has lost title, risk and/or control of the 2001 crop, has lost beneficial interest and is currently not eligible for benefits.

One last note: LDP's were processed on the 2000 non-contract acreage. Currently contract commodities produced on non-contract acreage in 2001 is NOT ELIGIBLE.

Beware of Undermarketings

Producers in years past have been eligible to carry forward under market pounds for one year. Beginning with the 2001 crop, we are now advising producers to market as much of the effective quota as possible. We also would like to advise producers not to "lay out" tobacco for one year hoping to have a larger quota the next year. Here is our reasoning: Beginning with the 2001 Burley tobacco crop, if you sell less than 100 percent of your effective quota, the amount of quota that can be carried forward to the next crop year may be subject to reduction. Reductions in the carryover of undermarketings will come in effect when the total Burley undermarketings exceed 10 percent of the national basic quota.

REMEMBER: LEASER MARKET 100 PERCENT OF THE FARMS EFFECTIVE QUOTA TO AVOID A POSSIBLE REDUCTION OF POUNDS!

Warehouse Designation-A Must in 2001

Beginning with the 2001 marketing year burley tobacco farmer operators will be required to file an initial designation of pounds to a specific warehouse, receiving station or dealer with which they intend to market their tobacco. The initial designation period for the 2001 marketing season will begin June 1, 2001 and end on August 1, 2001.

Farmers will be eligible to re-designate pounds and sale locations during the re-designation periods of October 1-5, 2001, October 29-November 2, 2001, December 3-7, December 28, 2001-January 4, 2002 and January 28-February 1, 2002.

FSA has a listing for public notice of warehouses, receiving stations and dealers posted on the bulletin board in the county office. This listing shall be available through March 31, 2002. Farmers selling at traditional auction warehouses will receive a marketing card similar to cards they have used in recent years. These cards will indicate the producer's designated warehouse. Marketing cards for producers selling at non-auction sites will be issued a thermal bar coded card. These cards will indicate the designated buyer.

Burley Tobacco Lease Date: Burley Tobacco Lease will end on July 2, 2001. Any producer wishing to post their name to the Tobacco

Lease In or Lease Out may contact the office in person or by calling 606-256-2525.
