course, "Introduction to Criminal Justice."
Continuing its commitment to community service, the sheriff's of-fice put together the educational program in conjunction with RCHS teacher Debbie Coleman.
Deputy Frice and Sheriff Doan worked with students to understand her roles and responsibilities of the sheriff's department, the roles and the problems and successes of our local police forces. Students were also encouraged to ask questions and work through hypothetical situations which the officers used practical experience and law.

Designed For Distance
By: Courtney Van Winkle

Students investigated various de-sign and materials in thig project. The students in the picture were top "de-signers for distance" from Ms. Clark and Ms. Cummins classics. Dustin Cromer's airplane traveled the farthest dislance. We interviewed Dustin about his design and he shared with us that the materials he used are a piece of paper and a paperclip. Dustin thinks that knowing hose to builden airplane is a family tradition. His ded taught him how to make the airplane. He used printer paper to make the airplane and. thepsperclip went on the nose of the airplane. His plane went 8 meters, 52 centimeters.

Bad Sportsmanship at Ball Games
By Amanda Doan
I have seen a lot of bad sportsmanship at many of the ball games I have

been to. At games you should always have good language. You shouldn't use had language to any of the play to the state of the state of

on them because it makes them feel-bad.
You should always say good things to both teams. Fans should say positive things in steed of negative things to late server, you shouldn't rub it in that you won. Tell the other team good job after the game because they played hard too. Everyone should have good sportsmanship at any ball game yos go to.
