ramblings....

Called "Fall Back" too soon, my bad

IOO SOOM, my Odd
hy perline in anderkin
It was the second time in 77 years
and, once again, have definite proof
that The Signal is well good.
I am, of course, referring to the
fact that in last week's Signal, we
fand tuse the deficient's "we' loosely),
reminded our readers to set their
clocks back Saturday night because
daylight savings time ended at 2 am.
Sunday morning.
Of course, as everyone else in the
course, know, it's actually the last

Sunday in October that time goes back and my "senior moment" caused some confusion to put it

ildly.

Our phone rang constantly from rary Thursday to close of business riday and I even got two calls at ome. The calls ranged from mostly lite ones of "I am confused, I ought time went back the last Sun-

ology forthcoming this we would be eating crow big tim is was even worse then the fir

is was even worse then the fir-nany years ago when there wer undays in the month and I ar-red that time changed on the fourth Sunday. Dr. Joe Henderson was the only

Dr. Dei Henderson was the only one late Sunday at our church and I haven't heard from him yet but have no doubt in my mind that! yill.

Anyway, consider this my official apology and, trust me, I cow have a good grip on the dates of the two time changes each year. However, to avoid the chance of this happening again and, to be on the safe side, I may just ignore them notice.

orite NPR station, which is a hu-curce of information for home ga

deners and which was taking time our from its MI plegle drive, or remain, folks like me who are only good for maybe ten bucks a year when gas is cheap, we aren't experiencing a, drought, all the plumbing is working, we never had to buy much prescrip-tion imedicine since the last drive a few weeks back, we have worlded bits by poisonous snakes, rabid when the state of the state of the state of the bits by poisonous snakes, rabid when the state of the state of the state of the drive 40 to 100 miles to Lexington with cold had cash, and plunked it arove 40 to 100 miles to Lexington with cold hard cash and plunked it down on the desk.

with cold hard cash and plunked it down on the dok show we don't have cell phones and they have learned the hard with the pledge over ten bucks so only good if we hin the Powerball so only good if we hin the Powerball and they have been well and with the plant we then well and well gladly settle up if we go to leaded and actually tucked the money in an envelopes and posted-it before we came to tour senses. I don't-even bother calling anymore but I do encotarge, all my friends to do so. Heck, it's a good-cause and the commercials are usually pretty short unless you are parally the proposed to the parally the proposed to the parally pretty short unless you are parally the proposed to the parallel pretty short unless you are parallel pretty short pretty short pretty pretty

pretty short unless you are par-to liberal democrats who some-es hog up an hour af a time derid-President Bush when we all kinow debate (however unfair to the ite House) to be a more appropri-activity for kindergarten-kids in tucky and West Virginia engaged serious, discussion with the

John Prine or Zoe Speaks tape to keep your tape player from rusting up while you listen to some of America's best music. (If you don't have a tape

best music. (If you don't have a low player in your car truck or whatever, it is you drive, please don't try to con-vince me that you are American). In the meantime, as far as I can tell, the Lowell Branch Borough of Paint-Lick is approximately ten feet lower than Death Valley. We did have frost because we failed to get our money to WUKY on time but we bers and 'maters that first night. We picked off the bitten leaves of the Rose Beans and powered them with some of that white fabric that all the tobacce farmer's use to fight off frost and one stinks we saved them when the big one hit is night later. There's a bushed or two hanging on the wind. All we're praying, for right now is nough seed to right now is enough seed to right now is prediging 10 fill folliars to WUK's spring drive. You can trust us UUK's spring drive. You can trust us UUK's spring drive. You can trust us UUK's we just sent WMMT at Applish.

again incovers. And we're insolved piedeging 10 fail dollars to WUKY's spring drive. You can trust us UKY, spring drive. You can trust us UKY, spring drive. You can trust us UKY, we just semt WMMT at Appalshop ten bucks and they ddn't even ask but we don't live close enough for them to keep the frost off.

In the meantime, don't be calling for green tomatoes to fry up late. They're miostly in the compost pile by now. Maybe next year Till drive up to WUKY in Lexington and hand deliver a \$30 bill the day the pledged drive starts. Or maybe WMMT will get a plower boost. In the meantime the Rosse Beans are nearly 11 inches long and they are beginning to swell by like pregnant eels. No forecasts for frost for the next 4 days but we need about the

ed about ten. We still have a chance here. Don't change that dial. We'll keep

Spring ahead and fall back. That's the cliche that we keep in mind about this time of year when we change our imapieces and go back in time one hour each fall. It really feels good to skeep that extra flow in the first morning after the time change, doesn's it? Imagine going back two hours instead of one. A few years ago, my mother said that when she was a little grl. (this would have been in the 1920s) the time was one hour faster than the current time. She said that it benefited people like the farmers- and schoolchildren. The children could walk to school and the farmers could walk to school and the farmers could senoscionatore. The chairms could do their early morning chores in the daylight. Otherwise, these activities would have been done in the dark, for the most part I guess the progress of the school buses, industrialization, and virtually every household having electricity slowly did away with that time.

that time.

I've often wondered why people can't just leave the time alone. After all, we just have twenty-four hours in a day, and only so much can be done in it. About the time we get our minds and bodies adjusted to one minds and bodies adjusted to one time being a certain-way, somebody has to come along and change it. Of course, if not time zone changes, the others must follow suit not only in the United States but all over the world or else there would be two or more time zones at the same time. At least the world cooperates about this one tonic.

ne topic. Personally, I'm not thoroughly convinced we need a strict adherence to hours anyway. Back during the time of the New Testament Church and before that, they had four watches a night: six P.M. to six A.M. kept hours during the day which be-gan at six A.M. until six P.M. I guess they used sundials. If we kept time

would never see are for an appointment again. Besides, wheever really ever gets in on time for an appointment anyway? It's time we stopped and smelfed the roses.

Speaking of going back in time or time travel, I think I would like to go back in time for a few days. I've always said I was bern far, far too late. Think it would have been fin to have

ways said I was born far, far too late.

I think it would have been fun to have been a teenager in the 1950s.

Wouldn't it have been fun to have witnessed the birth of rock and rolf?

Maybe even go, back to about 1900 and be a Gibson girl. That would have been an exciting era. America was just coming of age and becoming a national power. The Industrial Revolution was at its peak. It was also a time where laddies and men were men, and as John Wayne one saal, "That makes for a "4"-in good situation." Of course, I would have a big, farely has like Kate Winslet wore as Rose Dawson in Thims for every day of the week. The bigger the hat with hence feels, the bigger the hat with hence feels. The bigger the hat with hence feels. The bigger the hat with hence feels. Then show wouldn't like to be a lady-in-watting in medieval England? Then, who wouldn't like to be a lady-in-watting in medieval England? They were big on hats, too! I think I've got this thing about hats, don't you? But, it would be fun and exciting to be a time traveler and visit wrich use a feel that I've been in some of these times and places. Some call it fen-turnation, however, I don't believe in it.

Sometimes I wish I could travel. was just coming of age and becom-ing a national power. The Industrial

Sometimes I wish I could travel back to different eras and see my relatives from generations from long past. I dlove to see how they looked and how they lived their daily lives. I recently went to a Norton family reunion and heard stories of long ago. forton, the patriarch of the Norton lan who first came to settle in the clan who first came to settle in the Mt. Vernon-southern Laurel County area. This was just after the Civil War, and he canging John sarea from North Carrolina. His son, Joe. who wides the county of the Civil War, and the canging John of the Hadden the John of the John o

the months ahead. I hope to research as much history as possible to pais on to future generations. I hearthly encourage everyone to do as much faintly history and the recording of that history as possible before it's all gone. Every titile an older member of earr faintly dies, or an older member of ear faintly dies, or an older member of the community. Or that may history. St. I gives until next time, I'll be travelin' on.

Our Readers Write

Dear Editor,
First of all let me say that I was born and raised in Mt. Vernon and no matter where I live I will always call Mt. Vernon my home.
I left Mt. Vernon in 1962 as the say the lock of the light Mt. Vernon in 1963 as the lock of the lock

was nothing there for a person to look forward to: Since I left.Mt. Vernon I was nothing there for a person to look forward to. Since I left Mt. Vernon I have kept up with the happenings of all the people that I grew up with through the Mt. Vernon Signal Today, when I received my Signal dated Thursday September 22, 2003 I regather to the sear and the I have read nince the search of the I have read nince the search of the I have been continued by the I have been continued to the I have been gone I can see why I left. I always lack up the I have been gone I can see why I left. I always hought I would come back to Mt. Vernon someday when bettered by the memories of old times. Like

bear Editor.

Doctors: who campaign for letcher during a medical visit are busing the doctor patient relation-hip. I am writing this letter to exain how Fletcher's proposed precipitor drug plan shortchanges sectors.

scription drug play shortchanges se-nions.

Congressman Fletcher brags that the prescription drug bill he drafted will solve Kontuckian's health care needs. If people believe this, then they will probably believe that the gelding Funny Cide will soon have a colt running in the Kentucky Derby. As reported in national news me-dia, a participating senior would pay \$200 year in gremiums, then a \$250, deductible and a 20% co-payment. If your yearly prescription drug bill \$1,000, you will pay \$870 out of your own pocket.

That's bad, but it gets worse!

Sincerely, ne Spalding (270) 865-2842 255 Spencer Hamilton Rd. Loretto, Ky. 40037

Dear Editor,
The future of Kentucky is at stake on November 4. It is vital that we elect the right leadership to send to Frankfort. That is why I plan to place my vote for Ernie Fletcher.

elect the right leadership to send to rynakfort. That is why'l plan to place my-vote for Ernie Fletcher.

It is easy for candidated to say they plan to make things benter if elected. Percyday we here? and didated so sying. They to they offer any greef, they offer any greef, and they offer any offer any offer and they offer any offer any
