on a smaller lot, you probably should be willing to go ahead and spend some money and get a good one. For those with large lots, planting can still be done on the cheap by putting in \$15 and \$30 dollar potted trees and

\$15 and \$30 dollar pointed treet and shrubs all over it.

At least it will in a few years if you have planned car-culty and allowed for the space ma-ture plants will want and need. Fall or spring are ideal times for tree planting, though container grown trees can be planted anytime the ground is soft frozen. Fall is actually best in areas without sub-zero win-termeperatures.
