The confusing thing to me is that we still teach kindergarten kids to memorize the alphabet in the same old order (A, B, C, D, E, F, G etc.) of order (A, B, C, D, E, F, G etc.) and my to teach them to use computer (seyboards at the same time. Ain' it about time that we adjusted the ingole to the way we really use it. Sing along with me, humanmann, here we not to be used to be used

Let the kindergarten teacher and the typing teacher draw straws to see who gets it.

In the meantime, it's Thanksgiv-ing and I have three turkeys. And I-mean fully dressed, to quality, fro-zen turkeys ready for the oven as soon as you thaw them out and take out those bags of gibbers surfed in the trong question for all you under-takers out there:--When we kick the bucket and you dress us out, where, do you put our gibbles? I don't really care, but I've always wanted to know, just out of curiosity.

Answays I oretta literally dragged

me off the couch late this evening, insisting that if we were to feed the family turkey and all that other stuff on Thanksgiving Day, then we had to do some serious shopping to do

and off we headed to the Wim Dixie store in Richmond. A flyer inside the store suggested that if you bought over \$75 in other groceries, then you got a Wim Dixie Turkey in the 10 to 16 pound range for free and Happy Thanksgiving!

However, the turkey I decided appropriate, if not absolutely necessary, for our table weighed more than 50 pounds and the wrapper on it's acrease's suggested that it just might be a cut above the rest if, in fact, it was not the best and biggest bird in the store. So we hoisted it just to the shopping cart and went on about our business gathering up pie shells and such until it occurred to me that if we sport 75 bucks we got a free turbey, however inadequate ir might be for Thanksgiving because a free 12 to 16 pound turkey is not a deal you sneeze at.

Preventing Migraines

Presenting INIGRAINES

Presented by Dr. Kimberly Cornelius

Migraines can be prevented in two ways. The first is to avoid the loods, atresses and changes in life that can trigger the headaches. The other is to use a medicine prophylactically to decrease the frequency and sever. It is to the the contract of the properties of the proper

phylactic medicines.

There are also several other choices for migraine prophylaxis. If migraines affect your life, it may be time to discuss it with your doctor.
