Yamil Kassabdj: driving motof vehicle using handheld mobile telephone, paid.

Risk Management deadline unchanged FSA reporting deadline extended to August 2nd

John W. McCauley, USDA Kentucky Farm Service Agency (FSA) State Executive Director, announced an extension of the FSA acreage reporting deadline. Farmers and landowners have an additional 18 calendar days to submit their annual report of acreage to their local FSA county office with the deadline extended from Monday, July 15, 2013, to Friday, Aug. 2, 2013. Only the FSA reporting deadline has been extended. The acreage reporting requirement for crop insurance has not changed and remains July 15.

“We want to ensure our producers maintain their program benefits by filing their reports accurately and in a timely manner for all crops and land uses, including prevented and failed acreage,” said McCauley.

Accurate acreage reports are necessary to determine and maintain eligibility for various programs, such as the Direct and Counter-cyclical Program (DCP); the Average Crop Revenue Election Program (ACRE); the Conservation Reserve Program (CRP); and the Non-insured Crop Disaster Assistant Program (NAP).

Acreage reports for FSA are considered timely this year when filed at the county office by the new applicable final crop reporting deadline of Aug. 2, 2013. Producers should contact their county FSA office if they are uncertain about reporting deadlines.

While FSA is able to extend its deadline, Risk Management Agency (RMA) Administrator Brandon Willis emphasized today that RMA's acreage reporting date remains July 15, 2013, for most spring planted crops in the country. Farmers are reminded to report any loss within 72 hours of discovery to their insurance company. Farmers must report prevented planting acreage to their insurance company, in writing within 15 calendar days after the final planting date. Losses must be reported and an insurance adjuster must view and release the crop before the crop is destroyed. Farmers are also reminded to contact their insurance agent if they have any questions about coverage, prevented planting, or for reporting and processing a claim.

Crop insurance is sold and delivered solely through private crop insurance agents. Contact a local crop insurance agent for more information about the program. A list of crop insurance agents is available at all USDA Service Centers or on the RMA web site at www.rma.usda.gov/tools/agents/.

Producers also should visit their USDA Service Center to complete acreage reporting for FSA. For questions on this or any FSA program, producers should contact their FSA county office or seek information online at www.fsa.usda.gov.
